About the website

- A 3D environment that is dark and empty like space
- The only thing visible is a collection of lightbulbs hanging from nothing (floating)
- All lightbulbs are of varying sizes and luminance
- The user, who is viewing the scene through a first-person camera, is able to move around the 3D space using the WASD keys
- Pressing space bar allows the user to jump and upon colliding with a light bulb, a box of information pops out
- The light bulbs are countries
- Brighter bulbs represent countries with higher literacy rates
- The lightbulbs are positioned in the shape of a standard world map
